Test Cases

Tested Requirement	As an admin I want to add new employer or candidate so that they login to the system to perform their task
Quick Description	Administration tasks
Input	Admin name, password
Expected Output	Admin able to change password and add/modify candidate details, add new employer or candidate
Observed Output	Can add/change groups, users. For candidates – can add applications, candidates, Jobs, and resumes. Can edit the status on the application. Admin password function looks great.
Verdict	Can we give better naming conventions for resume and job objects instead of having resume object 21 the view site link at the top right corner directing back to login page.
Comments	Day and night viewing additional feature works great.

Tested Requirement	Candidate Login/Sign up feature
Quick Description	Already existing candidate able to log in and signup for new account
Input	Email, selecting Role as candidate, password
Expected Output	Restriction for email address format, encrypted password
Observed Output	Sign up and login option worked for candidate, email format is correct, and password is encrypted.
Verdict	No issues.
Comments	If there's scope can improve this feature, logging in with correct email address but wrong password will prompt wrong password message.

Tested Requirement	As a candidate, I want to create/edit my profile so that I can apply to jobs.
Quick Description	Creating candidate profile
Input	FirstName, LastName, Phone
Expected Output	Restricted Phone field for 10 digits, view created profile, edit created profile
Observed Output	Able to edit and create and view the created profile, phone number field is restricted for 10 digits.
Verdict	There's login button on create profile returning error upon clicking
Comments	NA

Tested Requirement	Log out feature
Quick Description	Already existing candidate able to log out and login again
Input	Click on logout button
Expected Output	Candidate must be able to log out and login again
Observed Output	Logout feature working correctly and diverting back to home page.
Verdict	No issues
Comments	NA

Tested Requirement	As an employer I want to create my profile so that I can post jobs.
Quick Description	Creating profile for Employer, signup and login to existing account.
Input	CompanyName, Email, FirstName, LastName, Phone
Expected Output	Creation/editing profile, validation of all fields.
Observed Output	Create and view profile works correctly. Admin can view the newly added employer.
Verdict	Phone field is not restricted
Comments	NA

Tested Requirement	As an admin I want to view or modify all the users in the system so that I can maintain the system
Quick Description	View and edit users
Input	Created anima user
Expected Output	Can see the user listing
Observed Output	Admin can view and modify and add the users in the system, can check admin activities as well as in last login, permissions, groups assigned
Verdict	To track the alignment of candidates with resumes is not simple.
Comments	Changing object names might help.

Tested Requirement	As a candidate I want to build or upload a resume so that I can apply for jobs with that later
Quick Description	
Input	Summary, Education, Experience, Skills, File to attach
Expected Output	Resume build and upload works perfectly
Observed Output	If we do not upload resume file it is asking for edit resume, able to download and edit resume.
Verdict	No issues so far
Comments	NA
